

Woodview Medical Practice

Patient Information on Flu Vaccinations 2020

The surgery will be inviting you by text, telephone or email with your specific appointment, date & time.

We will be prioritising shielded patients and patients in a clinical high risk group first.

Please don't call us, we will contact you with your appointment details.

To minimise waiting times do not turn up before your allocated appointment time.

Ensure you are wearing a short sleeve top so you can easily remove your coat ready for the injection.

If you arrive by car you may be asked to wait in your car until you are called for.

Strict social distancing measures are in place which may affect waiting times on the day.

The Flu Vaccination programme for 50 - 64 year olds not in a clinical risk group will be rolled out in November and December.

This is a walk through clinic for flu vaccinations only.

You will be waiting outside, be cautious of the weather.

FACE COVERINGS MUST BE WORN AT ALL TIMES DURING YOUR APPOINTMENT
